

JOSHUA LIMIAC

Creative Company

April 12, 2024

Dear,

Ms. Jeanky S. Mendez

In this letter, I would want to express my enthusiasm about the Boomerang, Inc internship. As a devoted IT student with a diverse skill set that includes Backend, Debugger, and Programming, I am excited to contribute my unique combination of creativity and technical skills to your renowned organization.

After exploring your company, I was impressed by your commitment to encouraging personal and professional development in a dynamic workplace. Your dedication to responsive design and accessibility aligns with my own principles and interests, which makes me even more excited about the opportunity to join your team as a backend developer.

Despite the fact that I lack direct professional experience in this field, I am ready to get started and take advantage of any training chances that arise. I'm eager to learn from more experienced colleagues and am constantly looking for new methods to improve my abilities through personal projects and online courses.

I appreciate you taking the time to look over my application. I am delighted about the opportunity to bring my passion and effort to your team while also learning from seasoned experts. Please review my résumé and contact me if you have any more questions.

Sincerely,

Joshua Ezekiel Limiac
